BEST 2026

Program:

Monday

- 11:30 to 12:15. Luc Jaulin. Introduction to mobile marine robotics
- 14:30 to 16:00. Luc Jaulin. Autonomous Boats
- 16:00 to 17:00. Antoine Morvan. Heading control of virtual DD-Boat

Tuesday

- 10:00 to 12:00. Luc Jaulin. *Interval analysis for localization*
- 13:00 to 15:00. Reachability : Maël Godard

Wednesday

- 9:00 to 10:00. Romain Bornier. *Reinforcement learning for autonomous boats*, Part 1
- 11:00 to 12:00 Jean Philippe Brunet. *Oceanic robotics*
- 14:00 to 16:00. Romain Bornier. *Reinforcement learning for autonomous boats*, Part 2

Thursday

- 9:00 to 11:00. Antoine Morvan. *Digital Twins. Basic*
- 13:00 to 15:00. Antoine Morvan. *Digital Twins. practice*

Friday

- 9h to 12h : Luc Jaulin. *The race.*

The following speakers should be participating (at least 1 hour each):

- **Jean-Philippe Brunet** (underwater robotics, industry side): 1 hour : Wednesday
- **Benoît Zerr** (a former robotics professor at ENSTA, who retired 3 months ago and was the lead professor for BEST 2024)
